SASS IRISES—1941

The Superiority of Sass Irises has been thoroughly demonstrated by numerous awards to them culminating in the Dykes Medal for 1932 to Mr. H. P. Sass' Rameses.

The points of superiority that distinguish Sass Irises are, first of all, color. Other distinguishing qualities are complete hardiness, vigor of growth, freedom of bloom and texture. Grown under the rigorous conditions of Nebraska's hot sun and drying winds, an iris must be of the firmest texture to withstand them. Many fine Irises which are lacking in substance cannot be grown under Nebraska conditions. A Sass Iris will always stand up under any weather conditions.

The Sass Brothers are the leading breeders of intermediate irises and have developed this early blooming class into a range of color, size and quality of bloom that rivals the tall bearded class. They have also worked extensively and have developed qualities of Dwarf Irises of the highest quality and have now in process of development a series of Fall Blooming Irises.

Iris grow easier and multiply faster than any other perennial. Plant them in a sunny location that has good drainage. The bulb or rhizome should be planted just under the surface, not too deep. The roots should be spread out and the soil packed around them.

The best time to plant iris is in July and August, although they can be transplanted at any time of the year when the ground is not frozen.

NEW TYPE OF IRISES

These are hybrids between the Oncocyclus hybrids and Dwarf Bearded hybrids. The following are offered:

STORMY DAWN (Jacob Sass, 1933)—S, pallid soft blue violet, darker at base. F, pale nerapaline blue with brown stripes on the haft, forming a blotch at the end of the beard. Two large flowers on 10-inch stems.......25c

NEW 1941 INTRODUCTIONS

OTHER SASS IRISES

AMENTI (H. P. Sass, 1936)—S, grayish vinaceous. F, light mauve. Beard pale yellow. 36-inch branching stem ______25c

BLACKAMOOR (Jacob Sass, 1932)—One of the finest cark blue purples. Almost black when newly opened, hightening to blackish violet of uniform coloring. A free bloomer of great size. (Honorable Mention, 1931).....25c

BLUE HILL (H. P. Sass, 1939)—The bluest of the clear blue toned irises of a slightly deeper tone than Sensation and larger with perfect branching stems. A great addition to the blue toned iris. (Honorable Mention, 1932)

BONANZA (J. Sass, 1939)—A medium sized yellow ground plicata with distinct brown edge on fall. 34-inch stem \$2.00

BUTO (H.P. Sass, 1926)—A rich dark purple bicolor with velvety nearly black falls of great size and a great bloomer. Makes a fine mass. 30 inches. 2 for 25c

CLARA NOYES (H. P. Sass, 1931)—A gorgeous blend of orange yellow, and red of Talisman rose coloring. (Honorable Mention, 1931; Award of Merit, 1932).

2 for 25c

CLARIBEL (Jacob Sass, 1936)—A large flowered plicata on the order of Los Angeles. Hardy, 40-inch branching stem _____25c

COSETTE (H. P. Sass, 1936)—Early flowering white intermediate. 36-inch branching stem.......50c

CRYSTAL BEAUTY (J. Sass, 1935)—A large flowered self of pure white coloring on 40-inch well branched stalk ______25c

GOLDEN AGE (J. Sass, 1939)—Flowers medium to large. Color darkest yellow self. 42 inches, low branching stem ______\$3.00

GOLDEN HELMET (Jacob Sass, 1933)—S Ochraceous tawny at the edge, yellow ochre at the midrib and buckthorn brown at the claw. F Morocco red overlaid oxblood red, bronze haft striped Morocca red, prominent orange beard. Height 35 inches. Stem low branching. A striking brilliant varigata that shines in any iris planting 50c

IMPERIAL BLUSH (H. P. Sass, 1933)—A beautiful large bluish pink with 40-inch branching stems.....25c

JOYCETTE (Jacob Sass, -932)—S, raisin purple. F, blackish purple. A very large flower measuring 6 to $6\frac{1}{2}$ inches. 42-inch low branching stems. The effect with the sun shining through it is a rich, blazing red. Form excellent and substance heavy with usually three or four

LILAMANI (35-40) (Jacob Sass, 1938)—A velvety blackish violet self. Large flower, well branched, on 38-inch stalk \$\frac{1}{2}\$.

LITTLE JEWEL (J. Sass, 1939)—Brown tan blend. yellow. 38-inch good branching stem.......50e

MATULA (H. P. Sass, 1939) —S. domed, apricot buff, flushed congo pink in center. F. straight hanging. Indian lake, edged buff. Big light cadmium beard, heavy substance \$7.50

MIDGARD (H. P. Sass, 1926)—The best known and most popular pink and yellow blend, always in demand. An iris of exquisite coloring and has firm, heavy substance. Both standards and falls yellow with a flush of clear pink. A strong grower and free bloomer. 30 inches 2 for 25c

NASSAK (H. P. Sass)—A large and tall plicata, white with bright blue stitchings and perfectly hardy.....25c

NO-WE-TA (H. P. Sass, 1932)—A pinker Midgard type of entirely different form and an iris of exquisite coloring. S Conic arched and frilled. It is a beautiful true pink self in effect with yellow flushes at the center and edges of the falls and standards. 32 inches. 2 for 25e

OSSAR (24-34) (H. P. Sass, 1937)—This is a glowing, blackish red self. Not very tall, 32 inches, but low branching. There are many buds and often 3 flowers open on a stem. Flowers are of medium size of good shape and substance ______50c

RED WING (H. P. Sass)—S, light brownish vinaceous; F. Dahlia carmine. Large blooms. 36 inches.

ROYAL COACH (H. P. Sass, 1939)—Yellow plicata. S. and F. yellow, bordered brown. Flowers of medium size and heavy substance. Stems 36 inches, low and wide branching _______\$2.50

RUTH POLLOCK (H. P. Sass, 1939)—Yellow plicata, S. yellow, dotted and edged dark red-brown. F. light yellow, with a heavy border of red-brown. Stems 36 inches, low branching _________\$15.00

SOUND MONEY (J. Sass, 1934)—A fine yellow Pumila hybrid that also blooms in the fall. 10-12 inch...2 for 25c

THE RED DOUGLAS (J. Sass, 1937)—S. Raisin purple. F. Dahlia purple with brown haft. Prominent orange beard. Large flowers on well branched 40-inch stems \$3.00

THURATUS (H. P. Sass)—One of the darkest of all trises and makes a striking garden group. A rather long flower with drooping falls, a blackish purple self, showing rich crimson tones when the sun shines through it. 38 to 40 inches. A real beauty————————————————————2 for 25c

TIFFANY (H. P. Sass, 1938)—A fairly clear yellow plicata. Ground color yellow bordered brown. 36-inch branching stem \$3.00

WAMBLISKA (Jacob Sass, 1931)—Snowy glittering white standards with a blue tint at the heart of the flower. White falls with pale yellow beard and a few yellow veins at the haft. 30 to 45 inches. (Honorable Mention, 1931)

INTERMEDIATES — These are hybrids from the dwarfs crossed with the tall bearded kinds. Your choice at 10c each or \$1.00 per dozen. Abelard, blended brown. Alice Horsefall, dark red-purple. Ambera, light yellow. Challenger, dark purple. Doxa, olive buff. Gentius, bluish violet. Golden Bow, chrome yellow. Papio, pansy purple. Red Orchid, violet carmine. Southland, lemon chrome. Susa, red purple. Ultra, ultramarine violet.

FALL BLOOMERS. Black Magic, Sangreal, Southland, Autumn Gleam, Autumn Hazel, Ultra, Autumn King, Autumn Queen, White Autumn King.....each, 10c

We grow quite a number of seedling Siberians and also Spurias. We have the following to offer:
